

Napp is committed to complying with the requirements of the ABPI Code of Practice in the conduct of our business. As part of this commitment, we declare annually all payments made to UK healthcare professionals (HCPs). In addition, we provide transparency on our interactions with, and support of patient organisations, and any funding support and donations we provide to institutions, associations and organisations.

In compliance with the ABPI Code of Practice, all transfers of value to individual UK HCPs and HCOs (including those provided as grants, donations or benefits in kind) are to be disclosed in the first six months after the end of the calendar year in which the transfers of value were made. This can be found on the central ABPI disclosure platform; the disclosure platform can be accessed using the following web link: www.disclosureuk.org.uk.

Support provided to patient organisations and other organisations or groups in our local community will continue to be disclosed below and updated each year (this is for 2019 calendar year). You can see our previous declarations by clicking on the links for previous years.
